

A Very Important Message From Insurance Services

At Insurance Services, we pride ourselves on creating a policy to fit your insurance needs. However, as time goes on, your insurance needs may have changed from when the policy was first issued. To ensure your insurance policy is current and up to date, please read your policy for accuracy, language, and coverage. Every policy has its limitations- what is and is not covered.

It is the policyholder's responsibility to understand the limits of their policy and know what is and is not covered.

As a client of Insurance Services, you are very important to us. We thank you very much for allowing us to serve your insurance needs.
